We Accept:

Your Leader in Water-Efficient Technology

WE WANT TO BE YOUR IRRIGATION CONTRACTOR FOR LIFE!

In the last few years significant advances in technology have allowed lawn irrigation systems to become more water efficient. MARLO Company has made a commitment to being a leader and driving force in bringing this water-efficient tech-

nology to you, our customer.

We've been educated through seminars, manufacturer schooling and certification. Our owner has also become involved in bringing contractor licensing to the state of Michigan.

Your sprinkler system can be more water-efficient. Let us use our

SERVICE CONTRACTS AND IN-SEASON INSPECTIONS

Why is a Service Contract with an In-Season Inspection important to you?

In most cases your **sprinkler system is running at night** when no one is there. Often we find broken and misadjusted heads when servicing commercial properties. The question then is: For how long and **how much water/money was wasted?**

With an in-season inspection, included with Silver, Gold and Platinum Contracts, we can reduce this problem and proactively adjust your system to the needs of your lawn landscape.

MARLO Technicians will:

- Start your system to inspect controller and heads for adequate coverage.
- Reprogram controller, if needed, to provide proper seasonal watering.

Seasonal Training is held each year, along with monthly staff training.

Office Hours: April 1– November 1, Monday-Friday 8AM-5PM
 The week between Christmas and New Year, the Office is closed.
 November - March 31, Monday-Thursday 9AM-3PM
